LANGUAGE LABORATORY

Directorate of Agribusiness  
Development  
Tamil Nadu Agricultural University  
Coimbatore

Communication Skills play a pivotal role in promoting employability of graduates in any educational programme. Students who opt for agriculture as their profession primarily hail from rural background and they should compete in the global market. To do so, they need strong communication skills. The employers of various agro-based industries, banking sector and multi-national companies have expressed their views that TNAU-graduates have depth of knowledge but lack of expressive skills.

### About Language Laboratory

Communication Laboratory is a hub where the teacher and students are bridged through a cable networking system for effective learning. It is an innovative method of teaching English with the assistance of sophisticated software that facilitates interactive teaching and effective learning. The lab carries audio and video systems which enable to achieve these objectives.

### Teacher Console

This is the pivot of the Lab wherein teacher monitors all the 41 workstations through oral, written and non-verbal modes of communication. The Teacher Console had two computer monitors, headphones and system equipped with software. This facility provides for all students at a time.

### Workstations

There are 40 workstations intended to handle a class size of 40 students. Each workstation carries a computer, headphone, and free access to interact with the teacher.

### Classifications of software

1. Communication skills
2. Career skills and Soft skills
3. Higher education abroad
  - a) TOEFL
  - b) GMAT
  - c) GRE
  - d) BEC
  - e) IELTS

### Functions

Teacher has complete control over all students' computers. They

- can broadcast lessons by a click.
- can arrange group discussions and workshops among students.
- can broadcast one student's activity to other students in the class.
- can go for voice-chat with a student without disturbing others.
- can save the teaching material for further use.
- can conduct tests and model examinations.
- can block or control all key boards and mouse of computers .

### Software

The Communication Laboratory of TNAU has a highly upgraded version of the interactive software capable of carrying out a wide range of operations in digital format. The Teacher Console has a web camera to carryout videoconferencing and effective monitoring.
