- Extra-Curricular Activities
- Soft Skill Development Facilities

Communication Skills play a pivotal role in promoting employability of graduates in any educational programme. Particularly, students who opt for agriculture as their profession primarily hail from rural background and they should compete in the global market. To do so, they need strong communication skills. The employers of various agro-based industries, banking sector and multi-national companies have expressed the view that TNAU-graduates have depth of knowledge but lack of power of expression. **The Advanced Digital Language** lab of DSW was established in 2007 with an objective of sharpening the communicative and grooming the soft skills soft skills of our students for Placement, Higher education in India and abroad, and English language learning by means of self learning packages. The lab is regularly used by teachers to impart English language learning and soft skills for all disciplines The lab is equipped with a **Hi-Class net work software** which enables the teacher to facilitate several classroom interactions. It has a good amount of authentic CDs on career skills/soft skills, competitive examinations and English language learning. While the study centre has printed materials on such themes, the Advanced Digital Language Laboratory supports them in the form of software

Group Discussion Casita The Group Discussion casita facilitates placement for the graduating students of Tamil Nadu Agricultural University and grooming them for employability by means of soft skills courses, personality development workshops and career guidance courses. This Group Discussion casita includes supportive facilities like Plasma TV, DTH facilities to enable the faculty and resource persons to impart Group Discussion techniques by verbal code and visual code. It will go a long way to tap the talents and skills of the students implied in Group Discussion techniques. It has two dome camera with Digital Video Recording Unit to document, review and analyse the performance of individuals. It is a need – based Group Discussion casita for the effective conduct of selection of candidates for placement and simulation – based Group Discussions.

Chennai - 600 009

Sub: Extension of approval to Agricultural Engineering College & Research Inst Coimbatore Tamil Nadu - 641 003 , for the year 2005-06-reg.

Sir/Madam,

As you are aware, All India Council for Technical Education has been mandated under the AICTE Act, 1987 to ensure maintenance of norms and standards with regard to technical education in the country. In exercise of this mandate, the Council insists on fulfillment of the minimum requirements prescribed for imparting technical education by the institution so that quality of courses is not compromised and stakeholders are satisfied. The Council also undertakes an annual inspection of the institutions and conveys deficiencies to them for rectification.

Such institutions suffer from critical deficiencies of faculty in proper cadre ratio's qualification, experience and other requirements. Feed back of students with regard to quality of education imparted by such institutions has evoked grave concern. The Expert Committees, following holistic appraisal during inspections, have also pointed out severe shortcomings in key areas.

The institution was allowed to be established in the year 2004-05. The Inspection and Appraisal have revealed that adequate steps to provide the requisite infrastructure necessary for imparting quality technical education have not been taken. The institution has been found to be suffering from several deficiencies which are listed in Annexure-A for your perusal of which faculty shortage is the most critical.

The deficiencies particularly faculty shortage have evoked grave concern and rendered the institution liable for strict punitive action including being placed in no admission/reduced intake category. However the Council has decided that yet another last opportunity may be given to the institution to improve the situation as you are still a fledgling institution.

It has thus been decided to extend approval in respect of the institution for the year 2005-06 as indicated below, subject to rectification of deficiencies by end of August, 2005. The Council shall monitor progress in this regard carefully and strictly and shall put your institution in no admission/reduced intake category for the year 2006-07 without any further opportunity in the event of your failure to comply with the aforementioned stipulations. The approved course(s) along with recommended intake for the year 2005-06 in respect of Agricultural Engineering College & Research Inst Coimbatore Tamil Nadu - 641 003 is as under:-

COURSE (S)	APPROVED INTAKE 2004-05	APPROVED INTAKE 2005-06
Food Technology (Food Processing Engg.)	30	30

Note:- Additional intake/new courses not granted on account of deficiencies in respect of existing courses/intake.
