\*\*\*\*\*

Hon'ble Vice-Chancellor of Tamil Nadu Agricultural University visited Hybrid Rice Evaluation Centre, Gudalur on 26.12.2020 and reviewed the ongoing Research and Farm activities. Suggestions offered are listed for further follow up.

**Farm management**

1. Elephant damaged iron gates and concrete pillar are to be repaired immediately as petty works to prevent wild animals entry.
2. Elephant proof hanging wire system is to be installed in front of the road side area of fence in consultation with Dean, FC & RI, Mettupalayam.
3. Water proofing of the roof of HREC office has to be done before the onset of next monsoon. This work can be taken up departmentally following TNAU norms and rules.
4. Regular monitoring of flowering and seed set of sugarcane is to be followed up.
5. With the available moisture, short duration pulses crop need to be tried.
6. Ginger germplasm is to be maintained on regular basis.

Action taken may be reported regularly.

(By order of the Vice-Chancellor)
